

One quality that distinguishes full-service agents from those who are less connected and organized is that full-service agents, through experience dealing with various home-related needs, develop a network of Professional Service Providers to assist you with the home acquisition process.

Here are just a few resources that clients have used in the past that I pass on to you to help you start your selection process. However, I do not recommend any particular company or firm as that is beyond my area of expertise.

### **Accountant**

Larry Parker 3078 Tamiami Trail N.	262-2279
